In addition to the pre-petition mortgage arrearage stated below, this Plan includes a two month administrative arrearage which consists of the first two monthly mortgage payments which would other-wise be due for the two months immediately following the date of the filing of this case. Pursuant to Standing Order No. 10-2, the administrative arrearage shall compensate the mortgage creditor(s) for those two month's payments which would normally be due within the first two payment due dates after the date the bankruptcy case is filed, and the first regular monthly conduit mortgage payment from the Trustee shall be due by the time the third regular mortgage payment is due after the filing of this bankruptcy case. The table below shows the amount of the regular monthly mortgage payments to be made by the Trustee under the Plan, subject to any adjustments which may be made due during the Plan, the date of the month when each post-petition pay-ment is due, not including any applicable grace period, and both the pre-petition and administrative arrearages. In the event that any mortgage creditor listed below files a proof of claim indicating a higher pre-petition arrearage than stated below, the debtor shall promptly file either a motion to modify the plan so that the mortgage arrearage amount stated below equals the arrearage amount stated in the proof of claim, or an objection to the claim.

D. Unsecured Claims

Allowed, non-priority unsecured claims shall be paid a total dividend of \$7,913.01 to be distributed pro rata.

In the event that the holders of unsecured claims in this case file claims in the amounts scheduled in the petition, and those claims are allowed for the scheduled amounts, the percentage dividend to the holders of general unsecured claims will be about 8%.

In the event that the total of general unsecured claims is less than the total of the scheduled general unsecured claims, the actual percentage dividend will be higher. In the event that the total of the allowed general unsecured claims is greater than the total of the scheduled general unsecured claim amounts, the actual percentage will be lower. In order to determine the actual amount of the percentage dividend to be paid to the unsecured creditors, creditors may contact the Chapter 13 Trustee after the claims bar date in this case has passed.

Any reduction in the Trustee's percentage fee or conduit mortgage payments during the term of the Plan which is not offset by increases in mortgage payments or mortgage escrows may result in an increase in the dividend to be paid to the allowed general unsecured claims in this case.
